Guest Seminar Notice

Aiming at Living Life to the Full

by

Dr. Hilda HUANG

Environmental Protection Officer

Environmental Protection Department

HKSAR

Abstract

Dr. Huang received her Bachelor degree in Applied Chemistry from Fudan University, Shanghai in 2005. Her undergraduate research with Profs. Dongyuan Zhao and Michael Yu involved synthesizing mesoporous material and investigating their biomedical applications. She then enrolled in the Atmospheric, Marine and Coastal Environment Program and began her doctoral work in Atmospheric Chemistry under Prof. Jian Zhen Yu's group at HKUST in the Fall of 2005. After completion of her PhD degree in 2010, she continued to work in the group as a postdoctoral fellow for three years, followed by a project coordinator for another two years. In 2015, she joined the Government as an Environmental Protection Officer at Environmental Protection Department (EPD). In this seminar, Dr. Huang will share some of her stories being a student and a researcher at HKUST, and the current life in EPD.

Date : 22 April 2016 (Friday)

Time : 7:00pm – 8:30pm

**Venue : Room 5510 (Lift no. 25-26)
HKUST
Clear Water Bay
Kowloon**

(Host faculty: Prof. Peiyuan QIAN)

All Are Welcome!
