

Summer Camp 2015 For Prospective Research Postgraduate Students (Environmental Science Programs, School of Science) 13 – 17 July, 2015

The School of Science promotes a vibrant and dynamic environment that emphasizes academic excellence, innovation and collaboration. Comprised of one division and three departments, the School offers a wide spectrum of postgraduate programs aimed at enhancing our students' research experience and preparing them to meet the demands of ever-changing societal needs. Our core academic disciplines include chemistry, life sciences, mathematics, physics and an interdisciplinary program of environment science, the content of which is periodically updated to reflect the latest scientific developments and technological advancements.

Program: This Summer Camp is a program for those who are interested in pursuing MPhil or PhD programs in the School of Science at HKUST. Participants will attend a series of informal seminars introducing the postgraduate programs offered and current research topics in the Environmental Science Programs, School of Science. These seminars are intended to foster discussion among the participants and faculty members and to serve as a basis for further social and scientific interactions. Participants will also have opportunities to visit the individual research labs and university research facilities, meeting with professors and fellow postgraduate students, and discuss research topics and others, such as preparing for graduate school. This Summer Camp provides opportunity for the participants to learn the individual research groups and let the professors access your ability to conduct research projects in their MPhil or PhD programs.

***Environmental Science Programs [ENVS]:** The Environmental Science Programs (<http://envs.ust.hk>) was established in April 2012 under the School of Science. Professors under the Programs have excellent expertise and research experience particularly in atmospheric or marine environmental science. ENVS offers fundamental and research training in environmental field through an integrated undergraduate curriculum (BSc in Environmental Science) and research degree programs (MPhil/PhD in both Atmospheric and Marine Environmental Sciences). In response to the current needs of our society, an MSc in Environmental Health and Safety Program was also launched in September 2013. The Coastal Marine Laboratory on campus is an essential infrastructure supporting our marine researches, while the Environmental Central Facility serves as a platform supporting our atmospheric researches.

Eligibility: Undergraduate students majoring in Environmental Science/Marine Science/Atmospheric who have completed 3 years of studies (of a 4-year bachelor program) and have attained a GPA of 3.2 out of 4.0 (or 80%) or higher

Housing and allowances: The Summer Camp will provide on-campus student hostel (2-3 persons per room) to the participants. Each participant will also receive meal coupons of up to HK\$100 per day during the Summer Camp. Participants need to take care of their own transportation costs both to Hong Kong and back home.

Application: Please fill in the Application Form enclosed and return it together with your academic transcript (unofficial copy is acceptable) and your resume to the Environmental Science Programs, School of Science, Hong Kong University of Science and Technology (Attn.: Ms. Roni Hung) via regular mail, fax (852-3693-4766), or e-mail to envscamp@ust.hk; email is preferred. Application deadline is 30 April, 2015 with rolling admission until spaces are filled. For more information about the individual programs, please visit <http://envs.ust.hk/>. Successful applicants will be notified via email by 15 May, 2015.

Application Form - Summer Camp 2015 for Prospective Research Postgraduate Students

Personal Information

Title	Miss / Mr *
Name	_____ (Family Name) _____ (First Name)
Date of Birth	____ (DD) ____ (MM) ____ (YYYY)
Correspondence Address	
Contact No. / Mobile No.	
Email Address	

Education Background

Current Institution	
Program of Study	
Year of Study	
Latest overall GPA	___ out of ___ (Please enclose your transcript)
Your Ranking in Class	___ out of ___
Anticipated Graduation Date	____ (MM) ____ (YYYY)

Postgraduate Program of Interest - I am interested in:

PhD / MPhil * in	Life Science / Chemistry / Mathematics / Physics / Nano Science & Technology / Atmospheric Environmental Science / Marine Environmental Science*
Statement of research interest (briefly describe your interest and previous background in research)	
Career and Education Plan (briefly describe your plan after graduation and what you hope to learn from the Summer Camp)	

**Delete whichever not applicable*

Provide a one-page resume (Optional)

This is to declare that the information provided above and in all enclosed documents is accurate.

Signature of Applicant
